### Heating Instructions

Please consider before cooking:	Keep frozen until use. Appliance temperatures may vary. Please consider the performance of your appliance when following these cooking directions.
Restaurant use/commercial fryers:	Preheat enough oil at 350-360 °F (176-182 °C) to cover yuca tostones. Do not overload basket and carefully lower basket into hot oil. Fry for 3 to 4 minutes or until golden yellow. Drain on paper towel. Add salt to taste. Fry from frozen, do not thaw. We do not recommend cooking product in a microwave oven.

**CAUTION!!** Ice crystals on frozen foods can splatter when cooked in hot oil. To avoid risk of injuries, add product to the fryer with caution, carefully remove it from fryer after cooking, and let it cool for one minute before serving. Always wear protective eyewear and clothing to prevent injury from potential hot oil splattering.
